How to Play Pickleball

Pickleball is played on a badminton-sized court with a paddle and a plastic ball with holes. The game is played with two or four players, and the objective is to hit the ball over the net and into the opponent's court.

The game starts with a serve. The server stands behind the baseline and hits the ball diagonally into the opponent's service court. The receiver must return the ball before it bounces twice, and the rally continues until one player fails to return the ball.

Pickleball is a fast-paced game, and there are a variety of shots that can be used to win points. The most common shots are the serve, the volley, the dink, and the smash.

- **The serve** is hit with an underhand motion, and it must land in the opponent's service court.
- **The volley** is hit before the ball bounces, and it is used to keep the ball in play.
- **The dink** is a soft, short shot that is used to slow down the pace of the game.
- **The smash** is a hard, overhead shot that is used to win points.
