### **History of the United States Navy**

The United States Navy traces its origins to the Continental Navy, which was established in 1775 during the American Revolutionary War. The Continental Navy played a key role in the war, helping to secure American independence. After the war, the Continental Navy was disbanded, but it was reestablished in 1794 as the United States Navy.

The Navy's early years were marked by a series of conflicts with Barbary pirates. In the early 19th century, the Navy also played a role in the War of 1812 and the Mexican-American War. During the Civil War, the Navy

played a key role in blockading Confederate ports and supporting Union forces.

In the late 19th century, the Navy began to modernize its fleet, and it played a major role in the Spanish-American War. In the early 20th century, the Navy continued to grow and modernize, and it played a major role in World War I and World War II.

Since World War II, the Navy has continued to play a vital role in protecting the United States and its interests. The Navy has been involved in a number of conflicts, including the Korean War, the Vietnam War, the Gulf War, and the War on Terror.

### **Mission of the United States Navy**

The mission of the United States Navy is to maintain, train, and equip combat-ready naval forces capable of winning wars, deterring aggression, and maintaining freedom of the seas.

The Navy's mission is carried out through a variety of activities, including:

- Maintaining a fleet of ships and aircraft
- Training sailors and Marines
- Developing and deploying new technologies
- Conducting operations around the world

# **Organization of the United States Navy**

The United States Navy is organized into a number of different commands, including:

- The Chief of Naval Operations (CNO)
- The Fleet Forces Command
- The Naval Air Forces Command
- The Marine Corps
- The Naval Sea Systems Command
- The Naval Supply Systems Command

The CNO is the highest-ranking officer in the Navy and is responsible for the overall command of the Navy. The Fleet Forces Command is responsible for the Navy's operational forces, while the Naval Air Forces Command is responsible for the Navy's aviation forces. The Marine Corps is a separate branch of the military that is part of the Navy. The Naval Sea Systems Command is responsible for the design, construction, and maintenance of the Navy's ships and submarines. The Naval Supply Systems Command is responsible for the supply and logistics of the Navy.
